PROJECTS

- **Movie Flex**
  Link to project: github.com/yog9/movie-flex
  Movie Flex is another version of legendary movie database built using React/Redux. It is a multi-page website in which users can browse TV shows and movies. The movies and TV shows data is fetched from TMDB API using Axios. Used TMDB search API to provide users with a search feature in the website.

- **SnapScout**
  Link to the project: github.com/yog9/snapscout/
  SnapScout is a multi-page image gallery created using React. Used Axios to write API calls. Provided search functionality and fetched images using Flickr API.

- **Express Portfolio**
  Link to the project: github.com/yog9/express-portfolio/
  It is a portfolio showcasing all my projects and skills. Used Node.js, Express.js and Pug templating engine to build the same.

- **Bill Generator**
  Link to the project: github.com/yog9/bill-generator/
  Bill Generator is a Full-Stack app made to generate bills for food items that the user orders. It is built from scratch using React, React Router, Node.js and Mongo DB

- **Shopping Cart**
  Link to the project: github.com/yog9/shopping-cart/
  It is a multipage e-commerce website for selling shoes, built using React/Redux.

EXPERIENCE

- **TaxiVaxi** Pune, Maharashtra
  Software Engineer *Oct 2018 - Jan 2019*

  TaxiVaxi is a corporate travel management company which provides business travel solution, employee travel solution and cab services. It is the first online portal to offer Radio taxi, Bus Service, Self Driven cars, Car Pooling for daily business requirements.
  - Responsible for responsive view and cross browser compatibility of "Fleet 247" - a solution to all cab companies and cab/taxi vendors to manage their cabs, drivers, clients and billing.
  - Used chart.js to create a dashboard showcasing the number of clients, total billings and GST collected.
  - Revamped the whole website from Bootstrap 3 to Bootstrap 4 and added new pages to the website while maintaining the previous standards.

- **Eyecatchers** Thane, Mumbai
  Digital Marketing Intern *Dec 2017 - Feb 2018*

  Eyecatchers is an Advertising Agency that provides branding, promotional and communications needs for clients.
  - Handled all social media engagements and metrics for the assigned clients.
  - Researched their background and used it to plan out their branding guidelines and also prepared monthly reports for them.

- **Interlink Capital**   Pune, Maharashtra
  Social Media and Brand Development Intern   *Oct 2017 - Nov 2017*

  Interlink Capital Advisors provides broad range of services which includes Advisory, Tax Restructuring, Representation, Advocacy, Due Diligences etc.
  - Increased outreach of their website by implementing various off-page SEO techniques. Created social media content for their website.

- **Marketing Muggles**   Pune, Maharashtra
  Digital Marketing intern   *Aug 2017 - Oct 2017*

  MarketingMuggles is an Inbound Marketing Agency which provides Web development, Digital Marketing and Consulting services.
  - Understood the basics of Search Engine Optimization (SEO). Worked on creating content for the assigned client.
